(54) Title: **SECURITY CONTAINER**

(57) **Abstract:** An over container (1) for providing a security housing for a primary container (2), the over container (1) being adapted to receive or contain the primary container (2) and having an EAS tag (7) therein such that, when in a locked configuration, neither the primary container (2) nor the tag (7) can be removed and, when in an unlocked configuration, the over container (1) can be opened to allow the primary container (2) to be removed, the over container (1) being provided with a locking device (3) having first and second arms (3B, 3C) which, in the locked position, hold the over container in a closed configuration and which, in the unlocked position, enable the over container (1) to be opened, the locking device having a retaining arm (5) which, when the locking device (3) is in the locked position, acts to retain the locking device (3) in this position and which is releasable upon application of a predetermined magnetic field from release apparatus.
